Your body aches all over. Small lesions appear on your chest. The taste of blood and bile fills the back of your throat. For the rest of game, your CR is reduced by one permanently. You may no longer move faster than a walk. Fall unconscious for five minutes. You may not be woken up during this time. Roleplay accordingly.

Flight of the Dauntless / Run 2, Dec 2017

You have a sequence of *Z Packets* labeled one through six. If you fail to take enough opium, you will be instructed to open the next *Z Packet* in the sequence. You should open your *Z-1 Packet* now.

“Z-2 Packet”:

Your heart lurches brutally in your chest. Fall prone; you may not stand up for one minute. For the next five minutes after you get up, you are *Winded*: you may only walk heel-toe. Roleplay accordingly.

Flight of the Dauntless / Run 2, Dec 2017

“Z-3 Packet”:

Your head spins, blood rushes to your eyes and ears. Fall unconscious for five minutes, or until someone wakes you. You are *Winded* for ten minutes: you may only walk heel-toe and your CR is reduced by one. Roleplay accordingly.
